1 AIDI-1004 Tech Demo

1.0.1 Thomas Shank - 200346862

1.0.2 AHT (Audio hot-translator)

1.1 01 - Record Audio

```python
from encoding.translator import Translator

translator = Translator()

print(translator.question("Can you write me a poem?"))
```

```
Translator instantiated
Of course, I'd be delighted to write you a poem! Please tell me what topic or
theme you would like the poem to be about, and I'll get started right away.
```

1.2 02 - Transcribe Audio → Text

1.3 03 - Translate Text → Desired Language

1.4 04 - Synthesize Text → Audio
